

Upper Makefield Historical Advisory Commission (HAC) Meeting Minutes – April 7, 2014

Present: Virginia Cleary, Amy Mclellan ,Maureen Ferrazzi

1. **THE APPROVED MINUTES OF THE PREVIOUS MEETING WERE SENT TO THE Supervisors.**
2. The members continued the process of examining the Cd of the Historic Properties in Upper Makefield Township. Maureen brought a computer and a projector to the meeting once again to make the research move along.
3. The members discussed the work and the written document outlining the function of the Committee. We are determined to do our best to serve this document. We want to bring to life the History of Upper Makefield Township. The historic homes and the people who inhabited them represent a valuable legacy for the current Township residents.
4. We are aware that the protection of these historic homes requires an adequate Ordinance and the full faith and willingness of the local government to rise to the occasion and pass a document which will proudly reflect the area's history.
5. The charge for our next meeting is to study the document entitled "Protecting Historic Resources" as well as the proposed Ordinance draft from the Jointure.
6. We understand that the best use of our Committee is the setting of goals and deadlines to accomplish the true meaning of our purpose. We looked with great detail at the homes located in Taylorsville, Brownsburg, Dolington and Buckmanville. The idea was floated to make information available to the public about these communities.
7. The members are excited to have a positive impact on the historical presence of the community.
8. The Meeting was adjourned.

The next monthly meeting will be at 6:30 on May 5th, 2014..

Respectfully submitted:
Maureen J Ferrazzi: Secretary
