

Historical Architectural Review Board (HARB)
Meeting Minutes
Dolington Village Signage
June 29, 2015

The meeting was called to order at 3 pm. Present were Member Doreen Ruffe, Member Peter Ortilano and Member Dave Kuhns

The application is for the installation of three Dolington Village identification signs. The overall project includes traffic calming measures for Washington Crossing Road (Route 532) & Dolington Road.

The proposed signs are three foot by two foot. They are similar in design and color to the existing Upper Makefield Township identification signage placed at various road entrances in the Township.

It was noted the Historical Advisory Commission reviewed the sign rendering and submitted their meeting minutes. The rendering depicts a 1--- where the date will be. The Historical Advisory Commission wishes to review the date further and make recommendations.

The HARB voted 3-0 to recommend to the Board of Supervisors that the Certificate of Appropriateness be approved.

Respectfully submitted,
David A. Kuhns
